SELECTION CRITERIA

The process of selecting a team of the best and fairest players from the first two decades of this century, 2000 – 2009 and 2010 – 2019 had already been completed and published at the end of each decade.

The task was to form sub-committees representative of each of the first three decades to select a team from each of those decades. Of course, the team of the 70's constituted only the first 6 years of operation of the club between the first season in 1974 and the last year of the decade, 1979.

The selection criteria used to determine eligibility and selection in the teams matched that already determined for previous decades. The key criteria in no order of weighting were;

- Number of games played – a minimum of 2 seasons or 50 games
- Number of league premierships played
- Off-field contribution to the growth and wellbeing of the club

We would like to thank all those who dug deep into their memories to help construct these teams.

All players selected for a team of the decade are now eligible for selection in our "Team of the Half Century" which will be announced at our formal Gala Evening at the Clubrooms on June 17th and presentations made to each selected player and the coach.

We look forward to seeing all our past players at this event and also at our annual Past Players Day on August 12th at which we will be celebrating several premiership milestone reunions.

MULTIPLE DECADE HONOURS

The following players have been selected in Team of the Decade across multiple decades, a true testament to their skill as a player and their dedication to HCAFC.
